INTRA-DEPARTMENTAL COMMUNICATION

DATE: August 14, 1985

FROM: Jack Hansen / Michael Woo *mw.*

PHONE: SUBJECT: Kingston Ferry Terminal
Boring Data and Foundation
Recommendations.

TO: Al Kilian

Now is the time to review the foundation type for Kingston Ferry Terminal Auxiliary Slip Project. We would like you to provide Test Boring Data and Foundation Recommendations as soon as you can.

It has been our understanding that your Materials Laboratory already has soils information for the subject above. Your supplying the foundation recommendations will help this office to meet the deadline for design work.

Thanks for the cooperation you have given us in the past.

MW/ph

Advised Michael Woo our work will be delayed because of Garst case. Will complete as soon as Garst is completed. MW
